

HOME CARE RADIOLOGY

wireless and portable

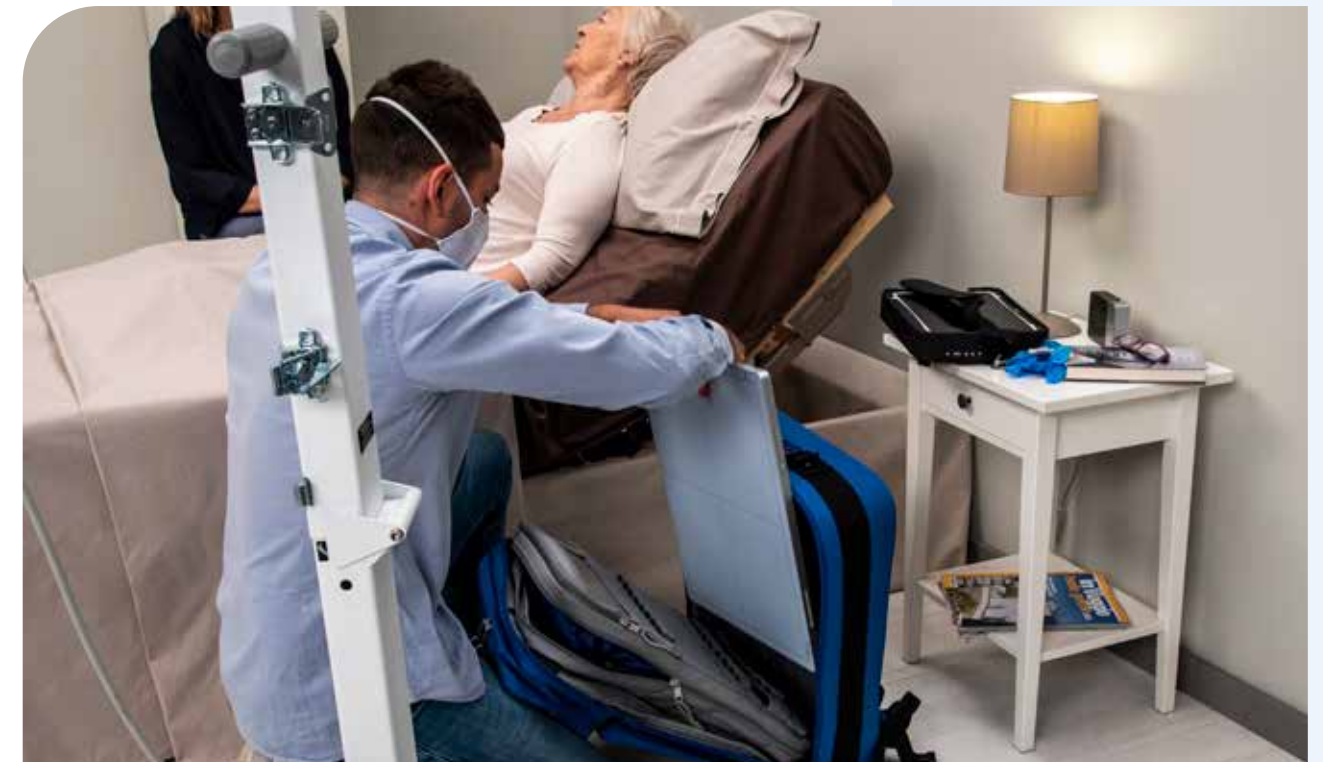

Home care Radiology

The emergency situation during the COVID-19 pandemic has dramatically shown how much the point-of-care imaging is crucial.

Home care Radiology until a few months ago was considered a weak method to reduce the discomfort to the patients, during rehabilitation at their homes. But the recent period confirmed that Home care Radiology is actually an extremely effective tool to drastically decrease patients' access to hospitals and the consequent risks of infections.

Current technologies also allow for high diagnostic quality and ease of use and transport, which were inconceivable until a few years ago.

Primax International has a proven track record in home radiology solutions, based on state-of-the-art technologies that ensure high transportability, ergonomics and the highest diagnostic quality.

Home care Radiology

wireless and portable

primax
INTERNATIONAL

Home care Radiology is a modular system composed of:

- X-ray generator with 2, 4 or 8 kW power
- portable workstation
- powerful imaging software
- wireless detector
- accessories

Rugged workstation with Primo S

- Smart operator multitouch graphic interface
- Workflow tailored to the operator's needs
- A few touches on intuitive icons to perform the exam
- WiFi images acquisition from Flat Panel detector
- WWAN 4G Images transmission from everywhere

X-ray Generator

- with folding support
- 100 kHz high frequency monoblock
- Voltage range: 40-100 kV
- mAs range: 0.3—50 mAs
- Collimator with LED light and laser (option)
- Wireless DAP (option)

Flat panel

- Automatic Exposures Detection Flat Panels
- Standard size from 24x30 to 43x43cm
- Resolutions from 100 to 160 μm
- High DQE

Accessories

- Detector frames for easy and safe handling
- Anti-scattering grids
- Transport bags and rucksacks

Home care Radiology

Anytime, Anywhere

Global Support

Primax International provide technical support for its products throughout their useful life, wherever they may be used.

Remote Support

Connectivity is native to the Home care Radiology, making remote support as easy as can be, whether you need to perform efficiency tests, software upgrades or maintenance.

Local Support

Technical training courses are regularly provided in the facilities of the group. They enable service engineers to install and service our range of equipment.
