# Raybow FLEX DR

## Portable X-ray unit

Perfectly adapted for external use, in mobile hospitals for emergency, rural locations and difficult access places.

The counterbalanced arm makes all movement easy and smooth, optimizing the workflow and ensuring greater usability for the operator.

### Always ready

Ready to use in any situation with the new supercapacitors module, automatically recovering its last working state after disconnection.

### Digital imaging

Thanks to the 17" on-board touch screen, our powerful imaging software and a wide choice of wireless flat panels, diagnostic power is at hand.

The dark color coating offers greater resistance, perfect cleaning and disinfection and it is perfect for an intensive use. The sturdy design with steel structure adapts to any type of outdoor or indoor environment.

## Anytime, Anywhere

### Global Support

Primax International provide technical support for its products throughout their useful life, wherever they may be used.

### Remote Support

Modularity is native to the Raybow FLEX DR making remote support as easy as can be, whether you need to perform efficiency tests, software upgrades or maintenance.

### Local Support

Technical training courses are regularly provided in the facilities of the group. They enable service engineers to install and service our range of equipment.
