

Riviera SPV AT

Riviera SPV AT

Details of quality

Column

The column provides smooth and precise movements, including rotation, for easy direct examinations.

Control

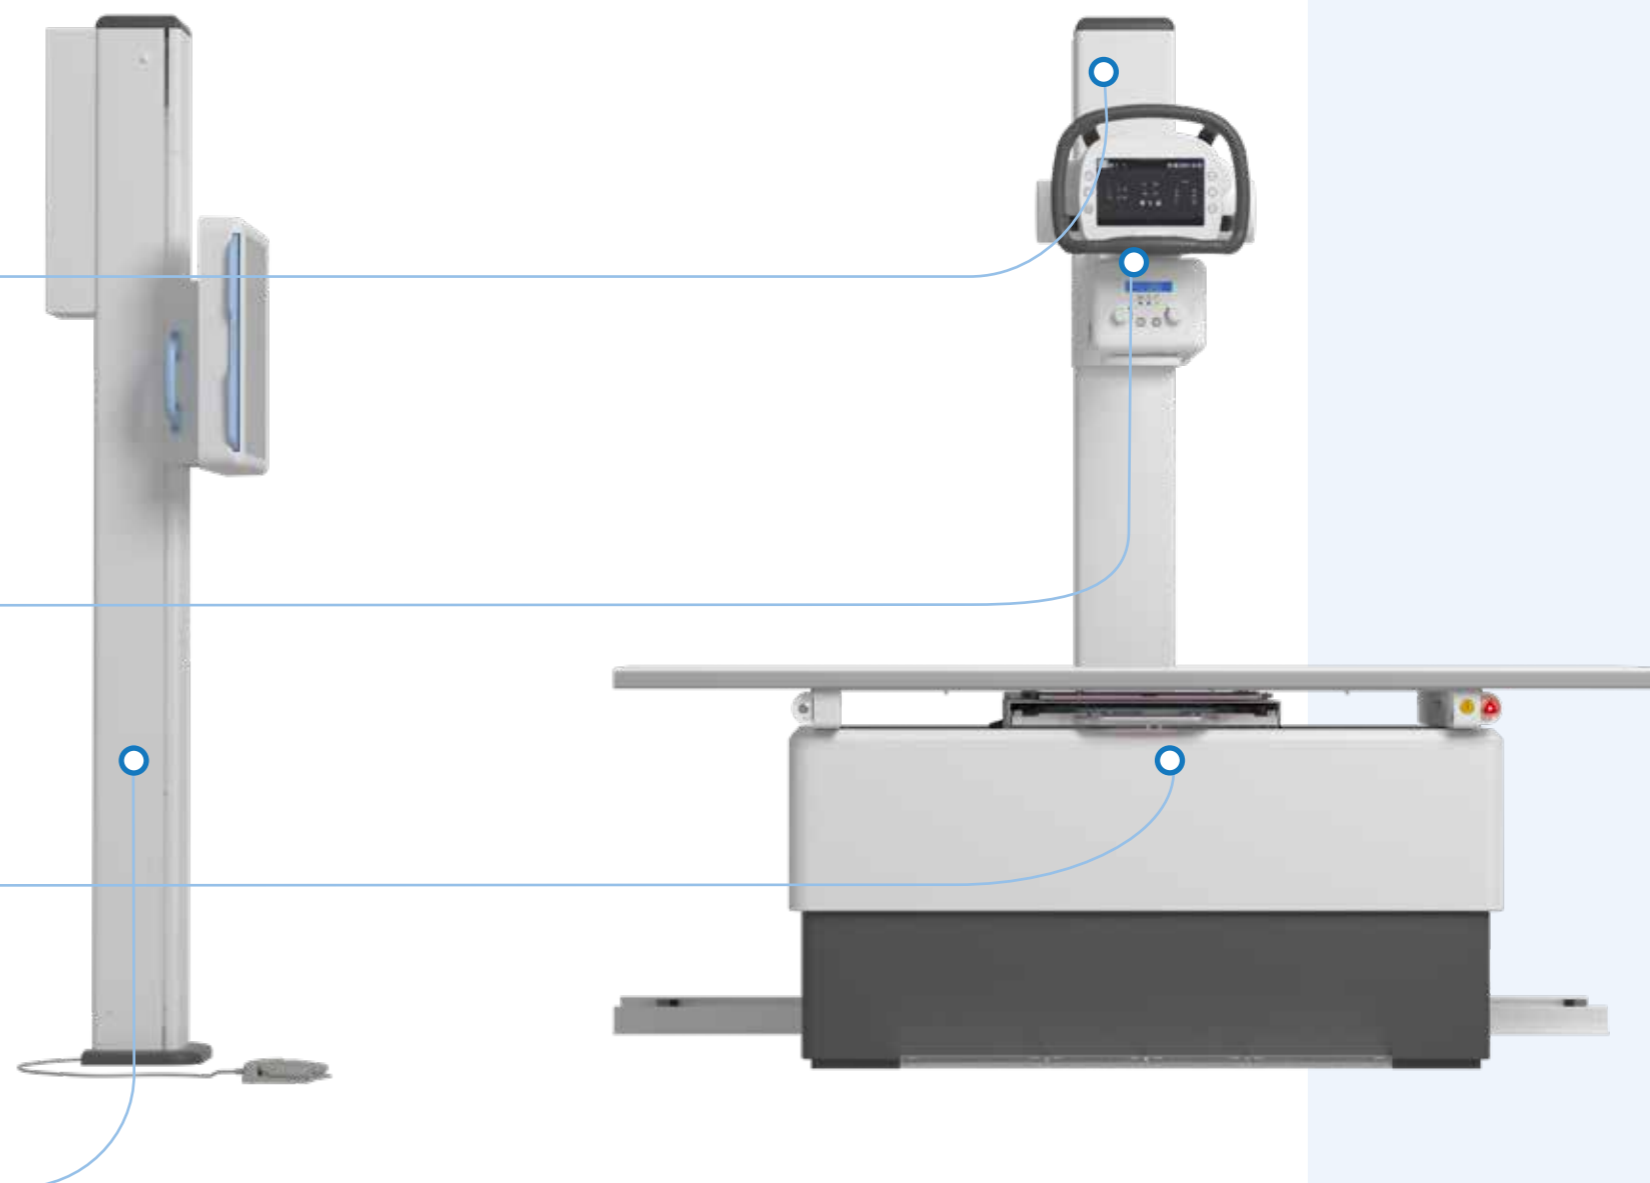

Ergonomically designed, the circular handle allows a perfect grip from any angle and position. It includes a release button to unblock all the brakes with a single press.

Table

High efficiency X-ray table, with a flat multidirectional floating top with electromagnetic brakes and motorized height adjustment.

Stand

Effective chest stand, totally counterbalanced for easy movement and patient positioning. With a practical foot switch for vertical motorized movement.

Riviera SPV AT

Details

Lightweight, smart and robust design, to withstand intense hospital use.

Riviera SPV AT grants a streamlined workflow and grants streamlined operations for improved patient workflow, even in the most severe conditions, thanks to the horizontal and vertical auto-tracking feature and the intuitive touch screen.

The optional automatic stitching with innovative asymmetric collimator feature completes the diagnostic power of Riviera SPV AT.

Full automatic image stitching process: both positionings/acquisition and image pasting without operator intervention. No tube movements thanks to special asymmetric collimator. No limitation on the patient height and the covered area, stitching can be performed up to 4 exposures.

The highly intuitive 10.3" touch screen offers to the operator the full control of the system, and greatly improve the workflow.

Riviera SPV AT

Anytime, Anywhere

Global Support

Primax International provide technical support for its products throughout their useful life, wherever they may be used.

Remote Support

Connectivity is native to the Riviera SPV AT making remote support as easy as can be, whether you need to perform efficiency tests, software upgrades or maintenance.

Local Support

Technical training courses are regularly provided in the facilities of the group. They enable service engineers to install and service our range of equipment.
